*The Tables have no legal effect; they do not present any interpretation of, or definitive position on, existing law or regulation in any jurisdiction. The Tables should not be relied upon for any purpose other than the purpose for which they were prepared. In particular, they should not be relied upon as a substitute for, or as guidance on, any aspect of the regulatory system of any Member State or as a defence in supervisory activities or enforcement proceedings; and they cannot be used to restrict competent authorities in taking regulatory or enforcement actions.*

*The information set out in the Tables is the response of each Member’s self-assessment. For this reason, the content of the Tables regarding a particular Member State has been prepared solely by the relevant Member on a best-efforts basis. (In a next step, the CESR Review Panel is going to conduct a common and collective peer exercise in reviewing the responses from all Members.) In case of discrepancy between the tables containing the responses from all CESR Members and the tables containing the individual responses from a particular CESR Member, the latter should be referred to.*

*The Tables provide a “snap shot” and will be up-dated on a regular basis to take account of regulatory developments in Member States. Therefore, they cannot be considered as fully finalised or definitive reflections of regulatory provisions in Member States. The Tables should also be read in light of current and future developments in the formulation of the proposed Directive on Markets in Financial Instruments (“ISD2”) and the future Level 2 implementing measures, and without prejudice to the position of any Member State in those developments.*

*For a more detailed account of the process, methodology and first, interim results, please see the “First Interim Report” by the Review Panel (Ref. CESR/03-414b).*

### 3.2 THE INVESTMENT FIRM'S DUTY TO CARE FOR THE CUSTOMER <sup>15</sup>

Standard /Rule	Implementing authority(ies)	Implementing measure	Comments
<i>72. When an investment firm provides investment advice to the customer, it must have reasonable grounds to believe, in light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship, that this investment advice is suitable for him. The investment firm must communicate the reasons why the advice is considered to be in the best interest of the customers at the time the advice is given.</i>	Finansinspektionen	.	A bill has been presented to the Parliament. A new law on Investment advice, addressing the provisions under 72, will enter into force on 1 <sup>st</sup> of July 2004.

<sup>15</sup> After having obtained the information from the customer according to chapter 3.1., the extent of an investment firm's duty to care for the customer depends on the nature of the investment service to be provided: where the service to be provided is a full hand-holding service of transmission or execution of order par. 72-76 apply; where the service to be provided is the pure transmission or execution of orders (This implies that no investment advice is provided and that suitability will not be tested on a transaction-by-transaction-basis) par. 74, 76 and 77 apply.

<b>73. Before accepting an order an investment firm must take reasonable care to verify that the order is suitable for the customer in light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship.</b>	Finansinspektionen	Regulation on Conduct of Business Rules (2002:7) Chap 4 Section 1  Chap 4 explicitly requires investment firms to document information concerning a customers identity and to the extent required to safeguard the customers interests, information concerning the customers financial situation, investment experience and the objectives of the services requested by the customer.	
75. Where an investment firm receives an order regarding a transaction that it considers – in the light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship – not suitable <sup>16</sup> for the customer, it must advise the customer accordingly and provide appropriate information on the transaction, including any necessary risk warning. The investment firm may transmit or execute the order only if the customer nonetheless confirms his intention to proceed with the transaction in writing or by telephone and recorded, and provided that such confirmation contains an explicit reference to the warning received.	Finansinspektionen	.	Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. <b>74. An investment firm must take reasonable care to verify that the customer has sufficient financial resources to settle the proposed transaction.</b>	Finansinspektionen	Regulation on Conduct of Business Rules (2002:7) Chap 4 Section 1  Chap 4 explicitly requires investment firms to document information concerning a customers identity and to the extent required to safeguard the customers interests, information concerning the customers financial situation, investment experience and the objectives of the services requested by the customer.	

<sup>16</sup> A transaction may be considered unsuitable for a customer, *inter alia*, because of the instrument involved (e.g. derivatives), because of the type of transaction (e.g. sale of options), because of the characteristics of the order (e.g. size or price specifications) or because of the frequency of the customer's trading.

76. An investment firm may accept an order without having taken reasonable steps to verify the immediate availability of the funds (securities) necessary for carrying out the related purchase (sale) only if an adequate credit facility has been agreed on beforehand.	Finansinspektionen		Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. 77. Where the service to be provided is the pure transmission or execution of orders (either through a special distribution channel, in individual cases or generally) the customer must be made aware of this fact prior to the transaction taking place for the first time. On the basis of the information obtained from the customer on opening the account, the investment firm will define an appropriate service including investment parameters, i.e. types of instruments, types of transactions and types of orders, and inform the customer accordingly. Where the investment firm receives an order regarding a transaction, which is not in line with the defined investment parameters, it must warn the customer accordingly and provide appropriate information on the transaction, including any necessary risk warning(s). The investment firm may transmit or execute the order only if the customer nonetheless confirms his intention to proceed with the transaction in writing or by telephone and recorded, and provided that such confirmation contains an explicit reference to the warning received. ### **6.1. CUSTOMER AGREEMENTS FOR DISCRETIONARY PORTFOLIO MANAGEMENT**

Standard /Rule	Implementing authority(ies)	Implementing measure	Comments
----------------	-----------------------------	----------------------	----------

116. <i>Prior to the provision of any discretionary portfolio management service, a customer agreement containing the relevant provisions of the basic customer agreement mentioned above, as well as certain additional provisions specific to portfolio management must be signed between the parties.</i>	Finansinspektionen	.	See 78.  Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.
118. Instead of the items referred to in Paragraph 80.e) , the customer agreement must contain: a) the management objective(s) and any specific constraints on discretionary management, b) the types of financial instruments that may be included within the portfolio and the types of transactions that may be carried out in such instruments, including any related limits.  In addition to the above, the customer agreement must contain: c) without prejudice of paragraph 121, the benchmark against which performance will be compared, d) the basis on which the instruments are to be assessed at the date of valuation, e) details regarding the delegation of the management function where this is permitted.	Finansinspektionen	.	Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.
119. The contract must indicate the objectives and the level of risk agreed upon, and any particular constraints on discretionary management resulting from the customer's personal circumstances as referred to in paragraph 62 or his request to exclude certain types of investments (certain business sectors for example).	Finansinspektionen		Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.
120. If an investment firm is mandated to invest in any of the following types of instruments or to undertake any of the following types of transactions, the contract must state so explicitly and provide adequate information on the scope of the investment firm's discretionary authority regarding these instruments and transactions: - financial instruments not traded on a regulated market, - illiquid or highly volatile financial instruments, - leveraged transactions, - securities repurchase agreements or securities lending agreements, - transactions involving credit, margin payments or deposit of collateral, - transactions involving foreign exchange risk.	Finansinspektionen	.	Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.

121. For information purposes with respect to the customer, the contract must indicate an appropriate benchmark, based on financial indicators produced by third parties and in common use, that is consistent with management objectives and against which the future results are to be compared. Where it is not feasible to establish such a benchmark in view of specific customer objectives, this must be stated clearly in the contract and an alternative measure of performance must be indicated.	Finansinspektionen	.	Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. Finansinspektionen	.	Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.
123. The contract must define a specific reporting requirement in the event of losses, defined as a marked-to-market decrease in the value of the portfolio as compared to the value of the portfolio as stated in the most recent periodic report (after neutralisation of any contributions or withdrawals). The contract must set a percentage threshold and a time period to warn the customer accordingly.	Finansinspektionen		Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. 124. If the contract provides for a variable management fee based on the performance of the management service, the method of calculation must be clearly defined in the contract.	Finansinspektionen		Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. <p>125. The contract must provide:</p> <ul style="list-style-type: none"> <li>- that the customer may terminate the agreement with immediate effect, subject only to the completion of all transactions already commenced and the time necessary to liquidate the portfolio where this is required by the customer;</li> <li>- that the investment firm may terminate the agreement subject to a two-week notice, provided however that where the portfolio cannot be liquidated (where required by the customer) within this timeframe, the agreement may be extended for the necessary additional period, and provided that where the customer so agrees after being informed of the firm's intention to terminate, the agreement may be terminated in the timeframe agreed between the parties.</li> </ul> <p>In both cases, the termination must take place on terms that are fair and reasonable for both parties.</p>	Finansinspektionen	. <p><b><i>117. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.
<p>126. If an investment firm is mandated to delegate management of any or all of the customer's assets, this must be stated in the contract and adequate information must be supplied in this regard, both to the customer and to the competent authority. The contract must also provide that the customer will be informed prior to any significant change regarding delegation of portfolio management.</p>	Finansinspektionen		Finansinspektionen follows a timetable for gradual implementation of the standards and rules. <p>127. An investment firm may delegate the portfolio management function to another investment firm only if such delegatee firm is authorised in its home country to provide portfolio management services on an individual basis and is qualified and capable of undertaking the function in question. The mandate shall not prevent the effectiveness of supervision over the delegator, and in particular, it must not prevent the delegator from acting in the best interests of its customers. In no case the investment firm may delegate its functions to the extent that it becomes a letter box entity. Furthermore, it may so delegate to a non-EEA investment firm so authorised in its home country only if an appropriate formal arrangement between regulators enables them to exchange material information concerning both cross-border delegations and the delegatee.</p>	Finansinspektionen	<p>Recommendation on outsourcing, 1998-12-18</p> <p>The recommendation refers both to outsourcing of operational functions and delegation of authorisable services. The recommendation explicitly requires investment firms to retain full responsibility for the outsourced activity and to assess the ability of the provider to fulfil its obligations according to a written agreement. The delegation may not be contrary to the law. ## C. CORE STANDARDS FOR THE “COUNTERPARTY RELATIONSHIP”

### 1. The “counterparty relationship”

Standard	Implementing authority(ies)	Implementing measure	Comments
<p>A « counterparty relationship » is typical of trading between investment firms and banks within themselves or with other entities which are not holding themselves out as providers of investment services but are market participants directly active in the financial market for proprietary trading. It is characterised by the absence of a “client relationship” (i.e. without any provision of service). In particular, it covers the following situations:</p> <ul style="list-style-type: none"> <li>- transactions executed in regulated markets or other trading venues (which do not give rise to any provision of investment service to the customer) between any member admitted to trade in these markets;</li> <li>- transactions executed directly (over-the-counter) between investment firms or credit institutions, authorised to provide the service of dealing, and dealing either as principal or as agent;</li> <li>- transactions executed directly (over-the-counter) between investment firms or credit institutions and other authorised or regulated financial intermediaries, including non-ISD firms, such as commodity dealers, insurance companies, but not including collective investment schemes and management companies of such schemes, pension funds and management companies of such funds.</li> </ul>	Finansinspektionen	-	<p>No specific laws or regulations are implemented on the counterparty regime..</p> <p>A certain flexibility is present in the regulation on information from/to customers. It is allowed for the firm to adapt this information according to the nature of the customer.</p> <p>Finansinspektionen follows a timetable for gradual implementation of the standards and rules. The first step was taken during 2002 with the implementation of some of the rules and the next step is due during 2004 when additional standards and rules will be implemented. The final step towards full implementation will start during 2004.</p>
CESR Members are free to allow companies to be treated as “counterparties” and to define the appropriate quantitative thresholds. In case of cross-border business, if the company is located in a jurisdiction where the “counterparty regime” is not applicable to companies, the professional regime will apply to that relationship.	-	-	-
Transactions entered into by these entities and effected through the offices of an authorised intermediary would be, by default, subject to the « professional regime ». Only those transactions undertaken by these entities for which they are direct “counterparties” and for which a specific choice to enter into a “counterparty relationship” has been made, are liable to operate subject to such a regime.	-	-	-

The entities meeting one of the above mentioned criteria and willing to enter into a « counterparty relationship » have to reciprocally confirm in the contract that the transaction is executed under a « counterparty relationship ». This confirmation may be given in master agreements, where applicable to a series of transactions of the same nature.	-	-	-

#### D. CRITERIA FOR DEFINING PROFESSIONAL INVESTORS

Professional investors are those who may be deemed to possess the experience, knowledge and expertise to make their own investment decisions and properly assess the risks they incur.

##### 1. Categories of investors who are considered to be professionals

<p>10. a) Entities which are required to be authorised or regulated to operate in the financial markets.</p> <p>The list below should be understood as including all authorised entities carrying out the characteristic activities of the entities mentioned: entities authorised by a Member State under a European Directive, entities authorised or regulated by a Member State without reference to a European Directive, and entities authorised or regulated by a non-Member State:</p> <ul style="list-style-type: none"> <li>• Credit institutions</li> <li>• Investment firms</li> <li>• Other authorised or regulated financial institutions</li> <li>• Insurance companies</li> <li>• Collective investment schemes and management companies of such schemes</li> <li>• Pension funds and management companies of such funds</li> </ul> <p>Commodity dealers.</p>	Finansinspektionen	-	<p>No laws or regulations defining professional customers are implemented.</p> <p>Finansinspektionen follows a timetable for gradual implementation of the standards and rules. National and regional governments, Central Banks, international and supranational institutions such as the World Bank, the IMF, the ECB, the EIB and other similar international organisations.	-	-	--See 10 a)

<sup>(18)</sup> Whilst CESR acknowledges that issuers of listed financial instruments, i.e. entities whose securities (equity instruments or other) are traded on a regulated market (within the meaning of article 1.13 of the ISD), should be treated as professional investors, Members are free to implement the categorisation of these issuers in line with the thresholds applicable to large companies and partnerships.

11. The entities mentioned in §10 are considered to be professionals. They must however be allowed to request non-professional treatment and investment firms may agree to provide a higher level of protection. Where the customer of an investment firm is a company or a partnership referred to in §10, the investment firm must inform it prior to any provision of services that, on the basis of the information available to the firm, the customer is deemed to be professional investor, and will be treated as such unless the firm and the customer agree otherwise. The firm must also inform the customer that he can request a variation of the terms of the agreement in order to secure a higher degree of protection.	-	-	--See 10 a)
12. It is the responsibility of the client considered to be a professional investor to ask for a higher level of protection when it deems it is unable to properly assess or manage the risks involved.	-	-	--See 10 a)
13. This higher level of protection will be provided when an investor who is considered to be a professional enters into a written agreement with the investment firm to the effect that it shall not be treated as a professional for the purposes of the applicable conduct of business regime. Such agreement should specify whether this applies to one or more particular services or transactions, or to one or more types of product or transaction.	-	-	--See 10 a)
			-See 10 a)

## 2. Categories of investors who may be treated as professionals on request

### 2.1. Identification criteria

Standard	Implementing authority(ies)	Implementing measure	Comments
14. The members of CESR consider that investors other than those mentioned in § 10, including public sector bodies <sup>(19)</sup> and private individual investors, may also be allowed to waive some of the protections afforded by the conduct of business rules. Investment firms should therefore be allowed to treat any of the above investors as professionals provided the relevant criteria and procedure mentioned below are fulfilled. These investors should not, however, be presumed to possess market knowledge and experience comparable to that of the categories listed in §10.	-	-	--See 10 a)
15. Any such waiver of the protection afforded by the standard conduct of business regime shall be considered valid only if an adequate assessment of the expertise, experience and knowledge of the client, undertaken by the investment firm, gives reasonable assurance, in light of the nature of the transactions or services envisaged, that the client is capable of making his own investment decisions and understanding the risks involved.  The fitness test applied to managers and directors of entities licensed under European Directives in the financial field could be regarded as an example of the assessment of expertise and knowledge. In the case of small entities, the person subject to the above assessment should be the person authorised to carry out transactions on behalf of the entity.	-	-	--See 10 a)
16. In the course of the above assessment, as a minimum, two of the following criteria should be satisfied:  <ul style="list-style-type: none"> <li>• The investor has carried out transactions, in significant size, on the relevant market at an average frequency of 10 per quarter over the previous four quarters;</li> <li>• The size of the investor's financial instrument portfolio, defined as including cash deposits and financial instruments exceeds 0,5 million Euro;</li> </ul> The investor works or has worked in the financial sector for at least one year in a professional position, which requires knowledge of the transactions or services envisaged.	-	-	--See 10 a)

<sup>(19)</sup> It should be noted that public sector bodies are subject to specific regulations that might prevent them from entering into certain types of transactions or opting for the professional conduct of business regime.

## 2.2. Procedure

Standard	Implementing authority(ies)	Implementing measure	Comments
<p>17. The investors defined above may waive the benefit of the detailed rules of conduct only where the following procedure is followed:</p> <p>a) they must state in writing to the investment firm that they wish to be treated as a professional investor, either generally or in respect of a particular investment service or transaction, or type of transaction or product;</p> <p>b) the investment firm must give them a clear written warning of the protections and investor compensation rights they may lose;</p> <p>c) they must state in writing, in a separate document from the contract, that they are aware of the consequences of losing such protections.</p>	-	-	--See 10 a)
<p>18. Before deciding to accept any request for waiver, investment firms must be required to take all reasonable steps to ensure that the client requesting to be treated as a professional investor meets the relevant requirements stated in Section II.1 above.</p> <p>However, if investors have already been categorised as professionals under parameters and procedures similar to those above, it is not intended that their relationships with investment firms should be affected by any new rules adopted pursuant to this paper.</p>	-	-	-See 10 a)-
<p>19. Firms must implement appropriate written internal policies and procedures to categorise investors.</p> <p>Professional investors are responsible for keeping the firm informed about any change, which could affect their current categorisation. Should the investment firm become aware however that the investor no longer fulfils the initial conditions, which made him eligible for a professional treatment, the investment firm must take appropriate action.</p>	-	-	--See 10 a)
